

Wednesday 20th September 2017

Wednesday workout!

Welcome back to our amazing children and their loving families at Highfield Nursery and a very warm welcome to our new friends!

We have had the best start to the year; children are more settled and are busy exploring the nursery environment.

Every Wednesday we will send out a workout to support your child's development at home. If you would like to suggest things/areas you would like some support in then please post suggestions in the box that can be found in reception.

This week our main focus is ensuring all children are happy and learning through play in all areas of nursery. We are also focusing on children's Personal Social Emotional Development (PSED).

It is incredibly important children have secure PSED to develop in other areas of learning. We are empowering children's self confidence, helping them build relationships and teaching them to manage their feelings.

There are many ways you can support this at home such as:

- Encourage independence wherever possible
- Model care and affection and encourage your child to show this to friends, pets and family
- Talk about different feelings and how you can deal with feelings

Please can you ensure you bring spare clothes including underwear, tops and pants, nappies and wipes if your child is not toilet trained. These will need restocking regularly and can be left at nursery. Can we ask that children's coats and bags are clearly labelled with their full name.

Have a fantastic week! From all the team at Highfield Nursery School!
